

# JONAS SEBERA

Kigali, Rwanda  
(+250) 798 223 860  
sebejaz99@gmail.com

Dynamic and results-oriented Full Stack Web3.0 Developer with an impressive six-year track record in the industry. Proficient in cutting-edge blockchain technologies and distinguished for expertise in Solidity smart contract development. Adept at seamlessly integrating front-end and back-end solutions to create robust and scalable web applications. Proven ability to deliver innovative, client-centric solutions that meet and exceed expectations. Committed to staying at the forefront of emerging trends in the rapidly evolving Web3.0 landscape. Seeking opportunities to leverage technical acumen and creative problem-solving skills to drive success for forward-thinking clients.

## Work Experience

### Mid-level smart contract developer

11/2023 to 12/2023

Blockify  
Remote

I worked on the implementation and testing of Solidity smart contracts with a dev team of 4 engineers.

### Frontend Developer

11/2022 to 09/2023

Italos  
Remote

I worked as a Frontend developer with a team of 3 devs.

## Skills
